After a long silence (except for what he told others) I heard from Bob Woodward this a.m. He is suddenly interest in any special (read CIA) schools to which LHO went. I told him of LHO's electronics training, reports he had taken language stidies, but knew of no other. He appears to be checking a report that Oswald went to a CIA marksmanship School. I ridiculed it and explained why. He is also interested, in this connection, in one Henry Ross III. The presumption is that the CIA trained LHO to the point where he really could have done it. Leander D'Avy was here when Bob called so there was much I could not go into...With all the $$$he is making a no by-line in the Post (where he is) for so long, it seems strange that he is off on a farout kick like this one.
